CIVIL ENGINEER (or EIT), 0-5 years experience

Civil Engineer, or EIT, - committed to being a collaborative member of a multi-disciplinary team of professionals interested in learning through participation with senior team members assisting with site engineering, construction engineering, utility design, stormwater management, and infrastructure planning.

Requirements:

Work experience is important (internships included)! Candidates should possess a strong work ethic, passion for the profession, design and technical skills. Candidates should enjoy learning and collaborating within a team often sharing drawings and responsibilities.

Responsibilities:

- Assist team members with site engineering, construction engineering, utility design, stormwater management, and infrastructure planning
- Approach every project detail with creative, innovative and resourceful solutions to meet client needs within their budget parameters
- Incorporate low-impact development, green designs into stormwater management systems
- Coordinate with other disciplines including architects, landscape architects, mechanical engineers, structural engineers, electrical engineers and planners
- Manage technical design in AutoCAD Civil 3D

Qualifications:

- Bachelor's Degree in Civil Engineering
- Basic knowledge of AutoCAD Civil 3D
- Microsoft Office Suite (Word, Excel, Powerpoint, Outlook, etc.)
- Basic knowledge of BlueBeam preferred
- Experience observing the construction industry preferred
